data to facilitate the  
care pathway and  
quality control**

# Laurie Hendren

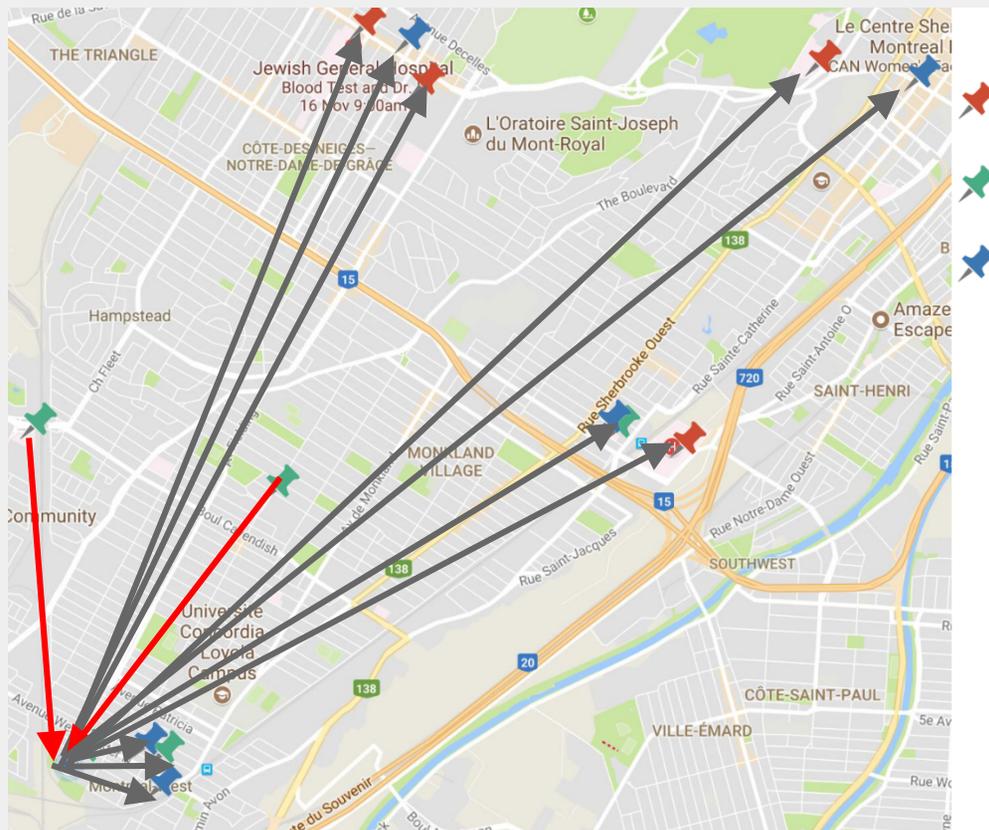

**Active Breast Cancer  
Patient and  
Patient Advocate**

**Professor, FRSC, CRC  
Computer Science  
McGill University**

Please contact me at: [hendren@cs.mcgill.ca](mailto:hendren@cs.mcgill.ca)

## My treatment network - 36 sq. km. in Montreal

4 hospitals

5 public clinics

5 private clinics

[http://www.breastcancer.org/tips/managing\\_records](http://www.breastcancer.org/tips/managing_records)

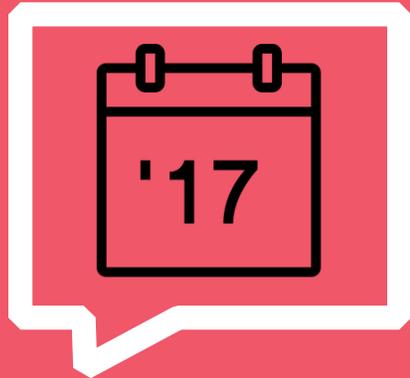

BREASTCANCER.ORG  
REAL. ANSWERS.

“

*Because your medical history is spread out among your entire medical team, it's a good idea for you to **keep your own complete, updated records so you can play an active, informed role in your care.** Knowing your medical history **allows you to share accurate information** with a new doctor, a nutritionist, a complementary medicine practitioner, or a personal trainer. In this way, you ensure that you continue to receive the best care possible.*

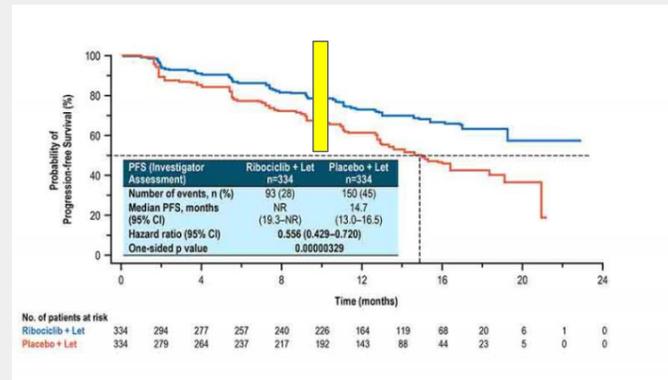

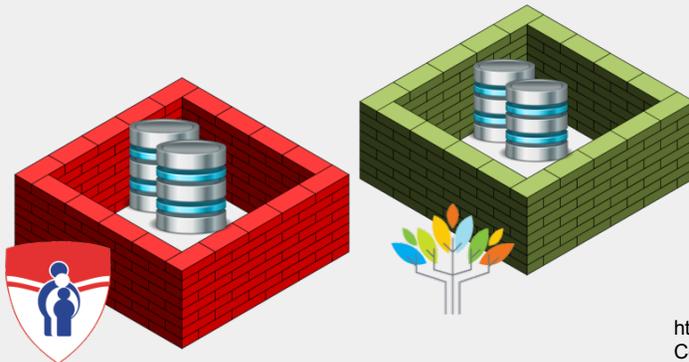

# Current Status

My experience, where is my data currently stored and how is it shared?

# Where is my data stored?

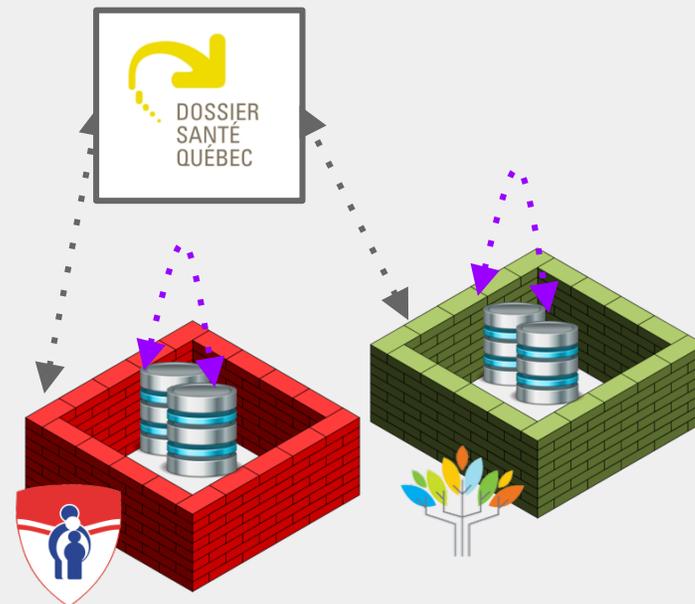

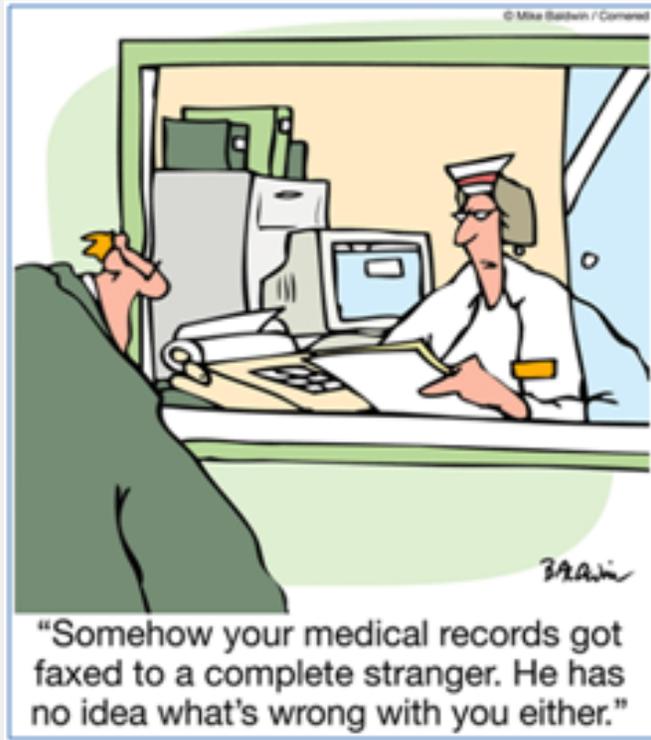

Handwritten medical notes and prescriptions, including patient names and dates.

<http://www.esmo.org/Conferences/Past-Conferences/ESMO-2016-Congress/Press-Media/Ribociclib-Improves-Progression-free-Survival-in-Advanced-Breast-Cancer>

## How is my data currently shared?

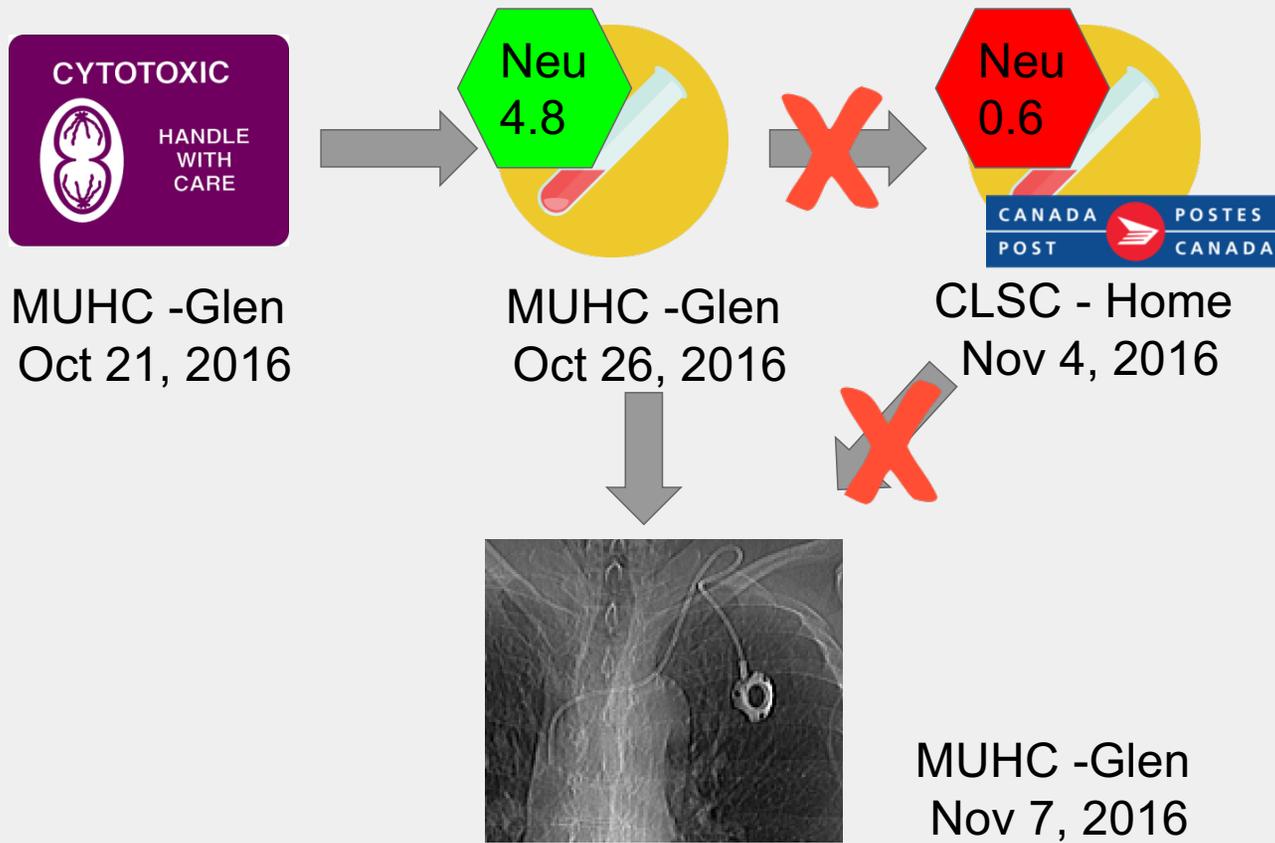

# What can go wrong?

Based on personal experience ....

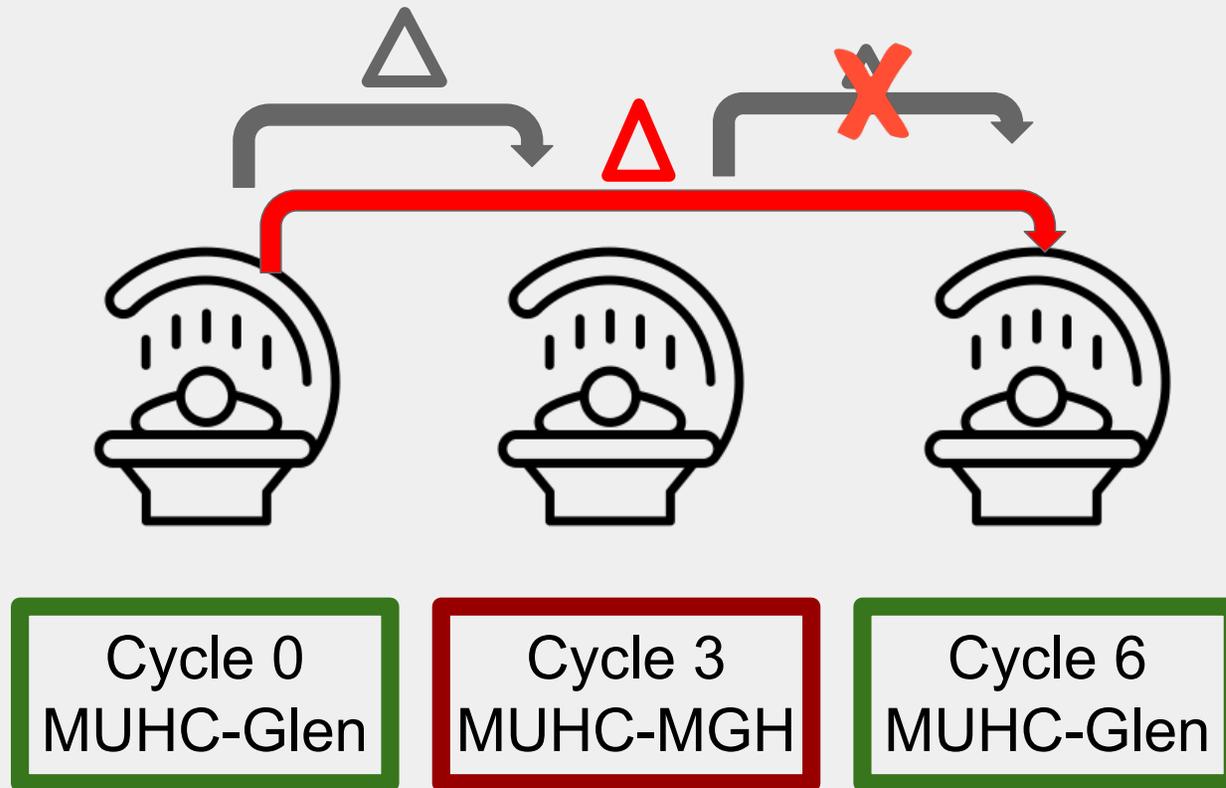

## Delays in my diagnosis and treatment

## Clinicians missing data, using out-of-date data.

## Another example of using the wrong data ....

## Unreasonable burden on me to provide data

“

*Just go and pick-up the film, CD and reports from your mammograms and ultrasound, and take them with you to the surgeon.*

*Just get your list of medications from the pharmacist.*

## Waste of time repeatedly giving my history

“

*What is your age?*

*How much do you weigh?*

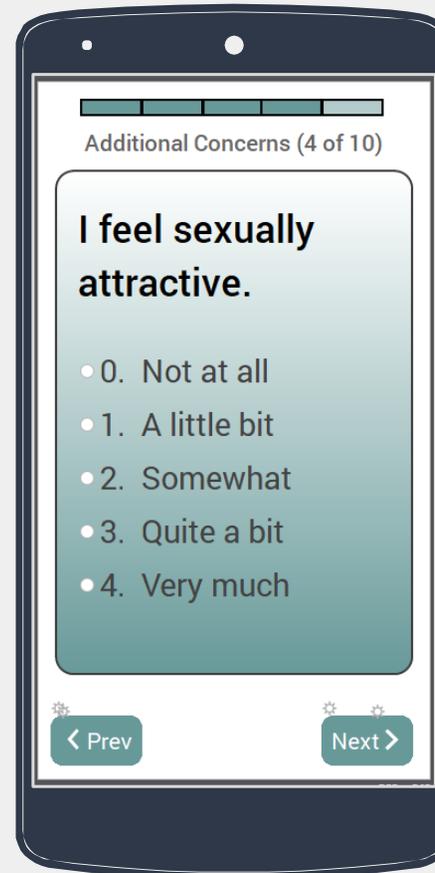

*When were you diagnosed?*

*What has happened since your last annual  
exam?*

*What are your medications?*

## Annoying PRO questions

- Lack of ability to give feedback about a question.
- No access to my previous answers
- Lack of feedback about results of study.

# Patient-stored data

My current options as a patient ....

## Getting my data .... (not so easy)

- Ask politely for a copy
- Ask more firmly for a copy
- Ask a different person
- Say that I need a copy for my GP/oncologist
- Fill out a form (pay a fee) and wait

**Santé et Services sociaux Québec**

**ACCESS TO INFORMATION REQUEST**  
Québec Electronic Health Record (QHR)

**Section A: IDENTIFICATION**  
Fields with an asterisk (\*) are mandatory.

* RAMQ health insurance number		* Last name		* First name	
* Date of birth	Year	Month	Day	* Gender	* Address (street, apartment)
			<input type="checkbox"/> F <input type="checkbox"/> M		
* City			* Province		* Postal code
* Area code	* Phone (daytime)	Area code	Phone (evening)	Email	
* Mother's maiden name		* Mother's first name		* Father's last name	* Father's first name

**IMPORTANT:** To prevent identity theft and protect your personal information, your request must be submitted along with a copy of a valid piece of signed photo I.D. (health insurance card, driver's license, passport, etc.) by mail or fax. Failure to provide this information may result in your request being delayed or turned down.

**Section B: IDENTIFICATION OF PARENT, REPRESENTATIVE, OR MANDATARY**  
Complete this section only if you are filing a request on behalf of the person named in Section A. Attach a document authorizing communication (consent, power of attorney, or court decision) if necessary.

Last name	First name	Area code	Phone (daytime)	Relationship to the person	
Address (street, apartment)		City		Province	
Postal code		Email			

**Section C: TYPE OF REQUEST**  
I understand that some fees may apply and that I will be notified in advance if this is the case.

Copy of my personal information as viewable by healthcare practitioners

Copy of my personal information contained in the QHR databank (specify as required)

All  Medication  Laboratory results  Medical imaging  Electronic prescriptions  Register of refusals

List of persons, organizations, or agencies who have had access to my personal information

Additional information, as required

**Section D: SIGNATURE**

Signature	Date (year / month / day)
-----------	---------------------------

Please fax the completed form to 418-266-7024 or mail it to the following address:  
Person in charge of QHR access  
Ministère de la Santé et des Services sociaux  
1075, chemin Sainte-Foy, 5<sup>e</sup> étage, Québec (Québec) G1S 2M1

# A better solution ....

The image shows a Google Docs document titled "Medication List: Laurie Hendren" overlaid on a Dropbox file explorer interface. The Google Docs window is in the foreground, showing a menu bar with options like File, Edit, View, Insert, Format, Data, Tools, Add-ons, and Help. The document content is partially visible, showing a table with columns for medication names and other details. The Dropbox interface is in the background, showing a folder named "Study" under "BStuff". The file explorer displays a list of files, including "2017\_June27\_BoneScan.JPG", "2017\_BloodResults\_May 29.pdf", and "2017\_May\_CT.pdf". There are also options to "Share folder", "Upload files", "New folder", and "Show deleted files". The interface includes a search bar, a notification bell, and a user profile icon.

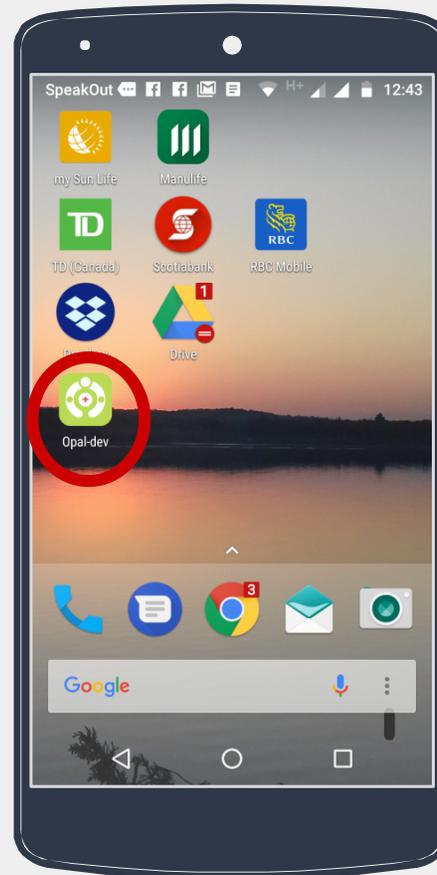

# Patient-controlled data

Thinking outside of the box ....

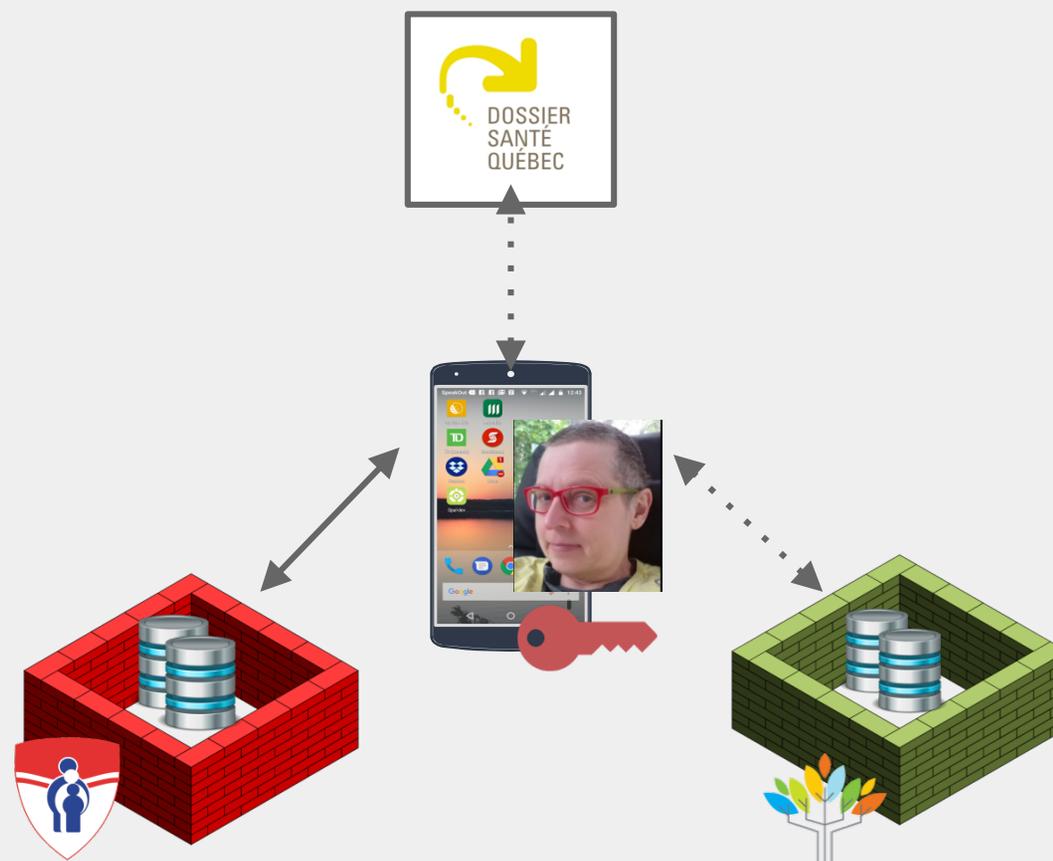

## Where is my important non-health data?

- Current data and notifications provided automatically to me.
- Available via my e-devices.

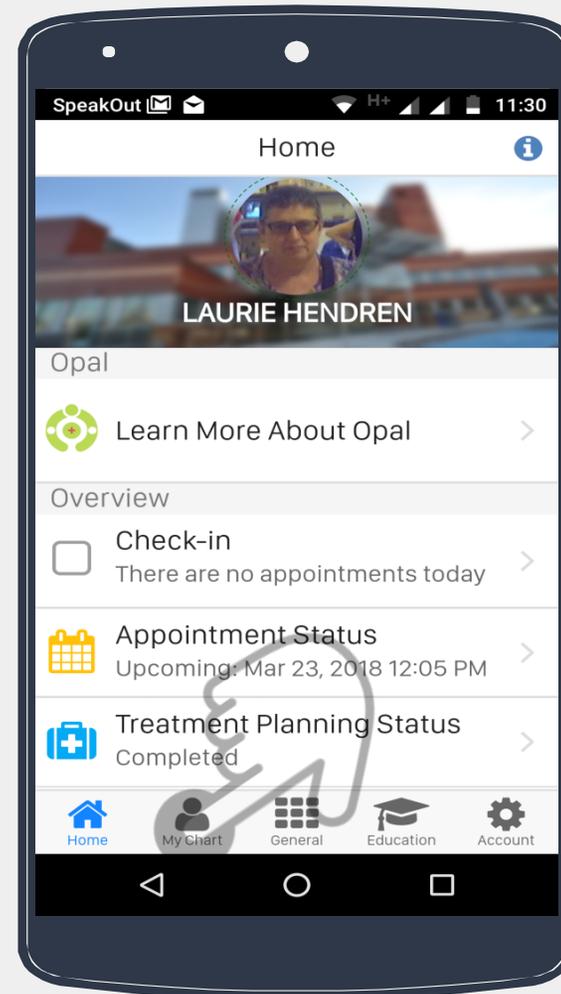

## Rethinking patient-controlled data - Opal

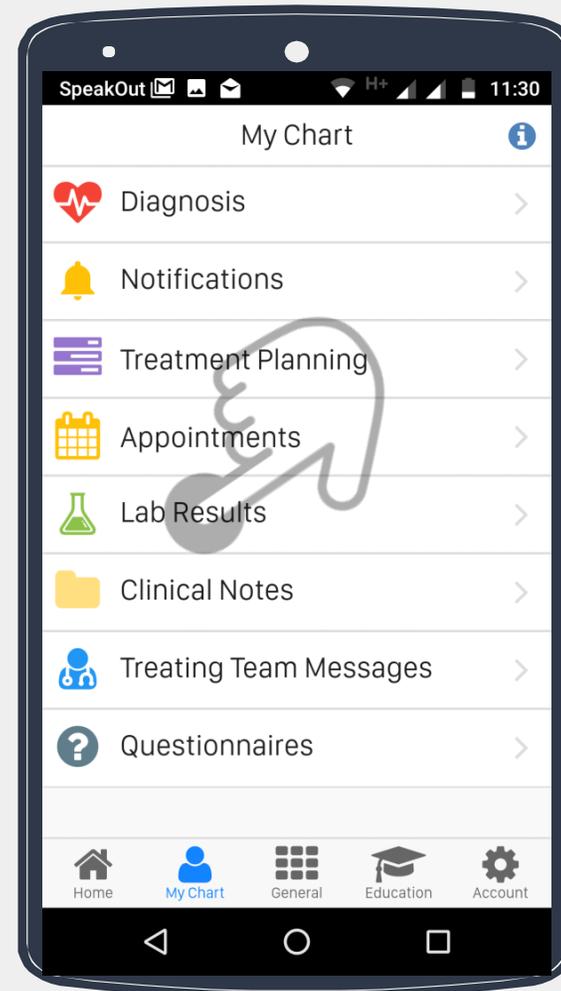

## Opal - a patient app

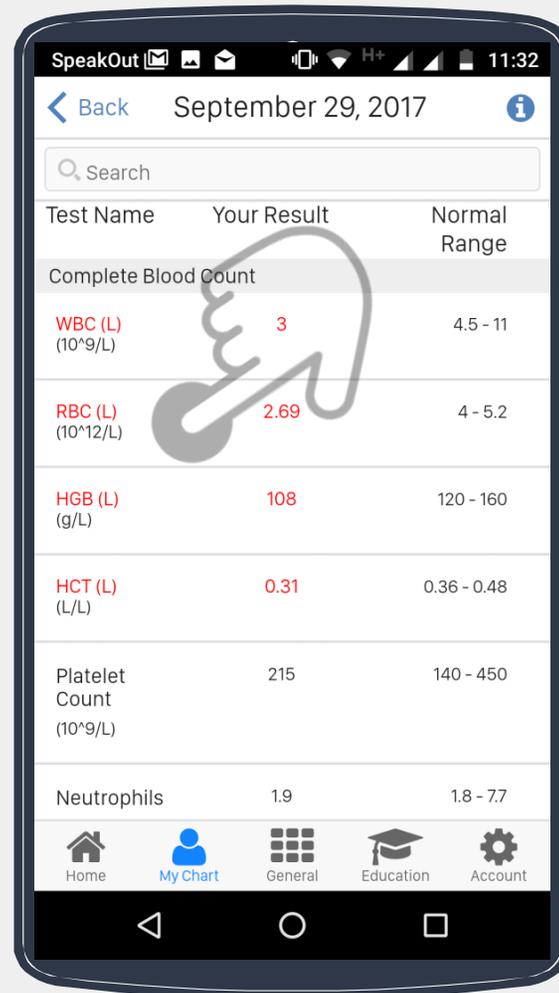

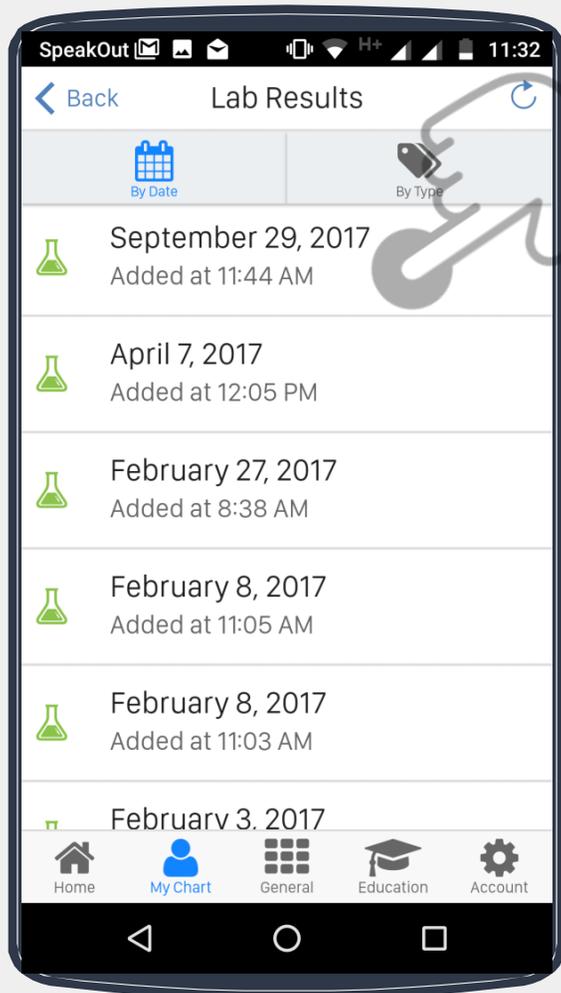

- Team co-led by Laurie Hendren, Tarek Hijal (Radiation Oncology) and John Kildea (Medical Physics)
- Patient-centric approach to provide many kinds of data.

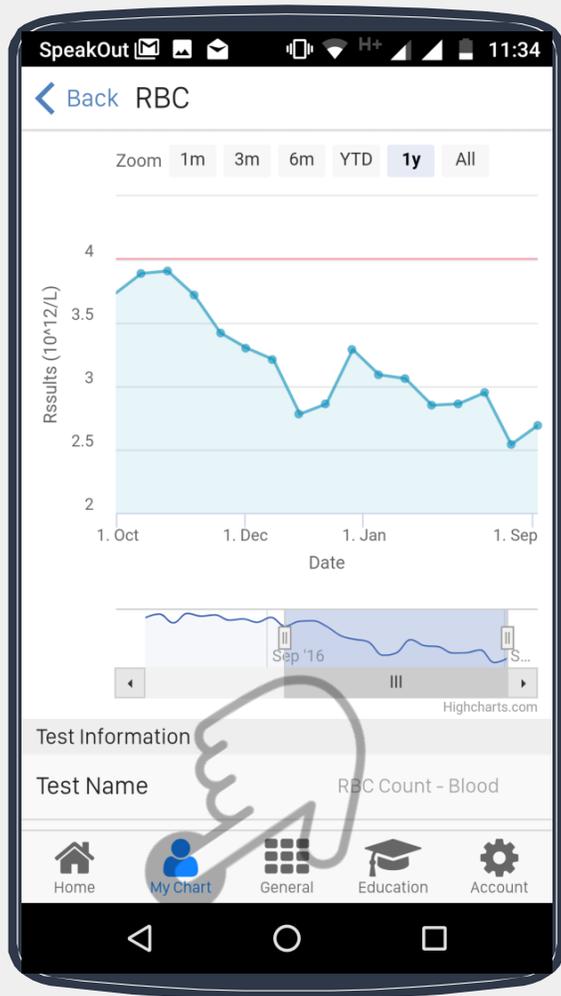

## Opal - My Chart

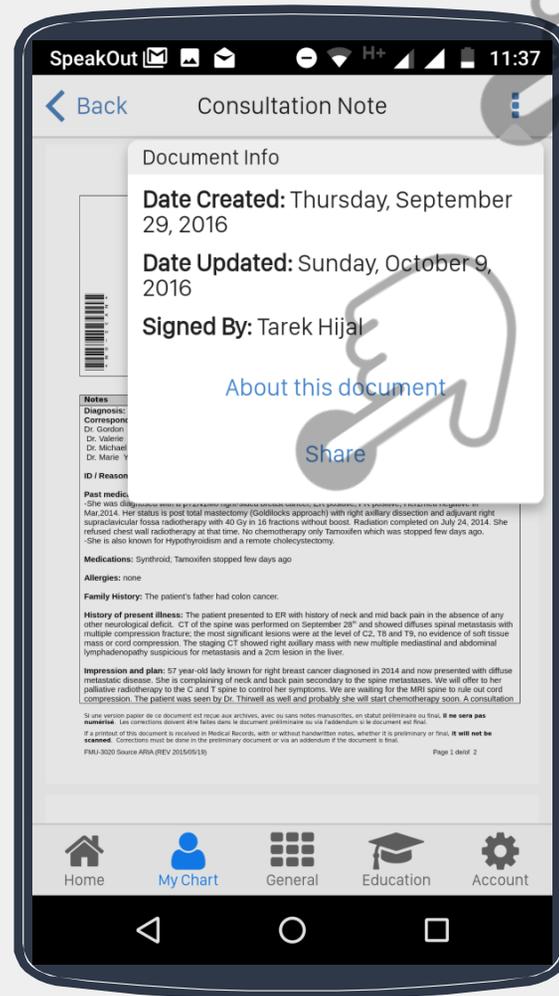

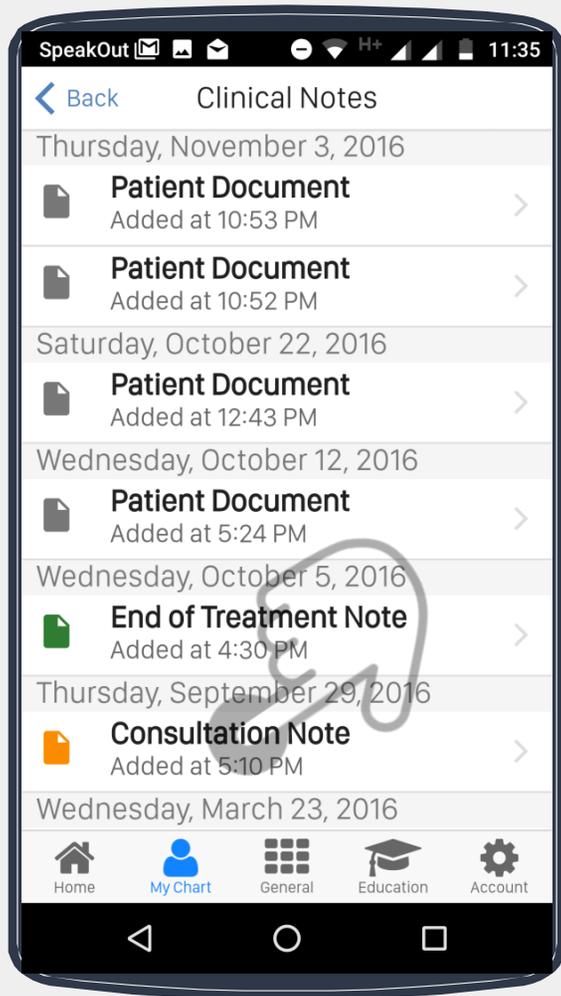

- All sorts of data that is specific to the patient.
- Three important categories are:
  - Lab Results
  - Clinical Notes
  - Questionnaires

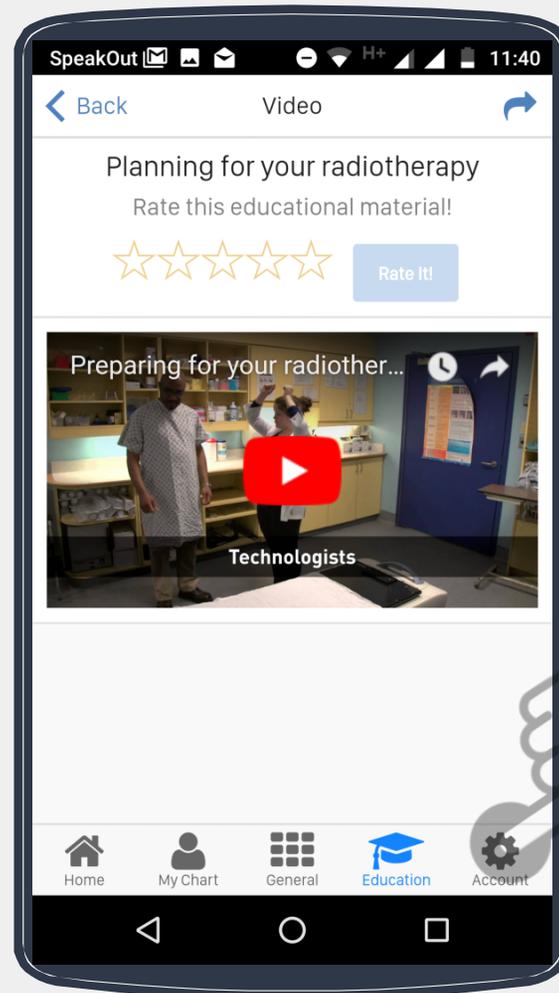

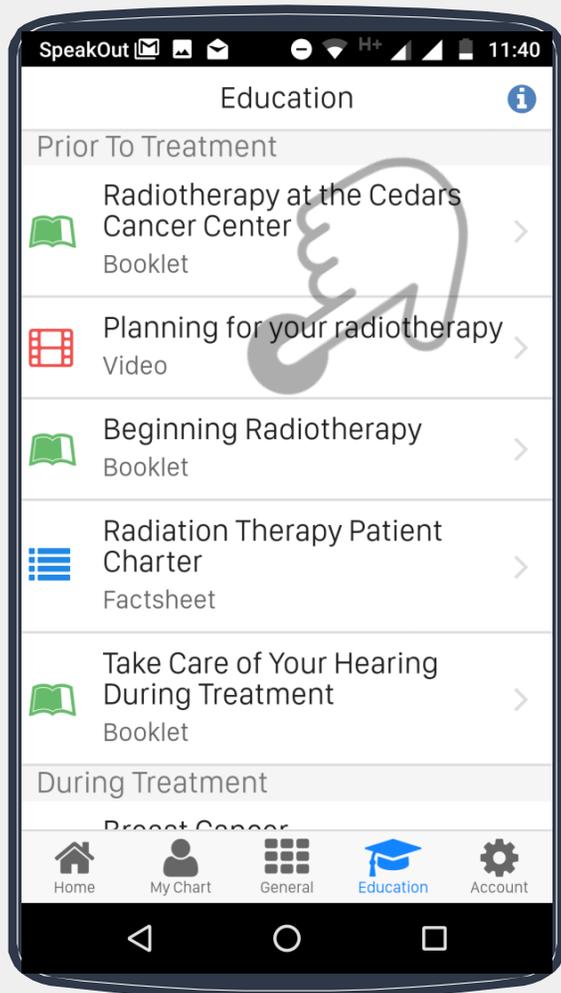

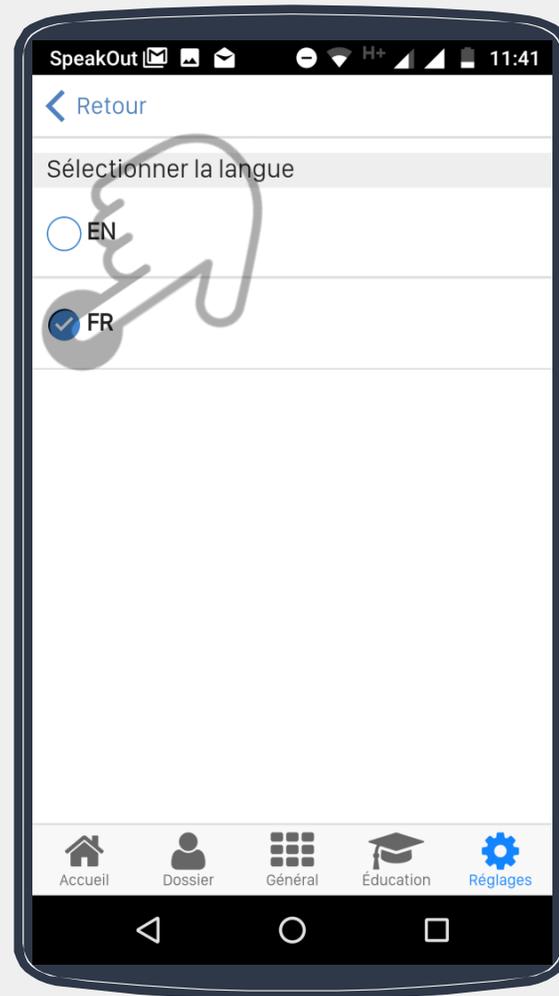

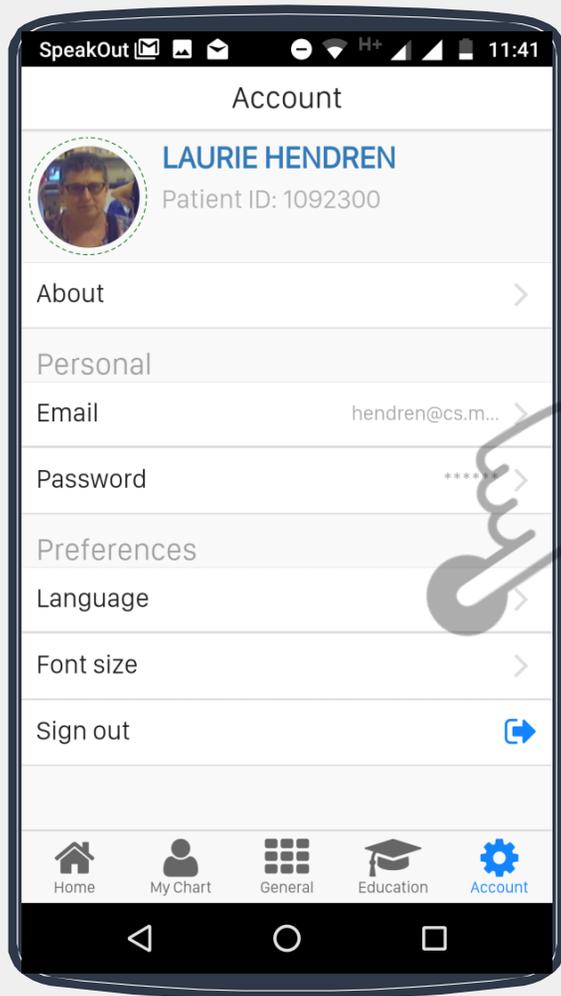

- SpeakOut 11:30
- My Chart
- Diagnosis
  - Notifications
  - Treatment Planning
  - Appointments
  - Lab Results
  - Clinical Notes
  - Treating Team Messages
  - Questionnaires

# How it works ...

I am the center of my healthcare network.

I should hold the key to my own data.

Let's do it with ...

# THANKS!!!!

The Opal developers, students, and patients; the MUHC Q+ initiative, MGH Corporation, MGH Foundation, Cedars Cancer Foundation, and the MUHC.

Patient focus group

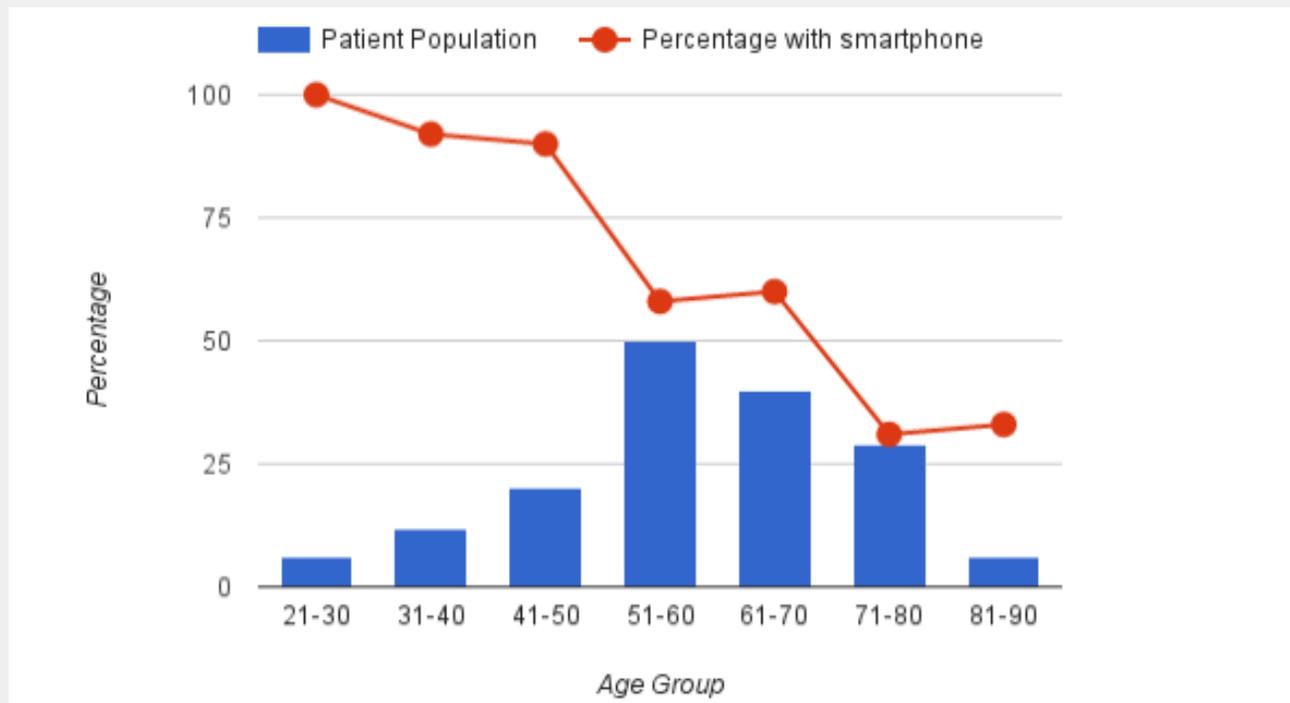

**MUHC Patients' Committee**

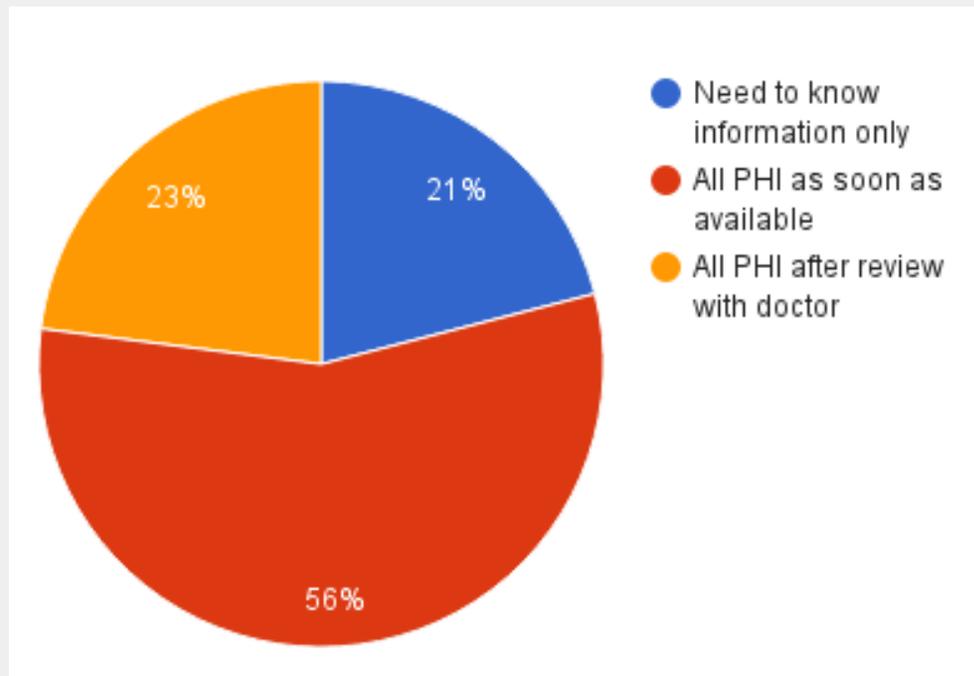

**Extra Slides**

## Will patients use a smartphone app?

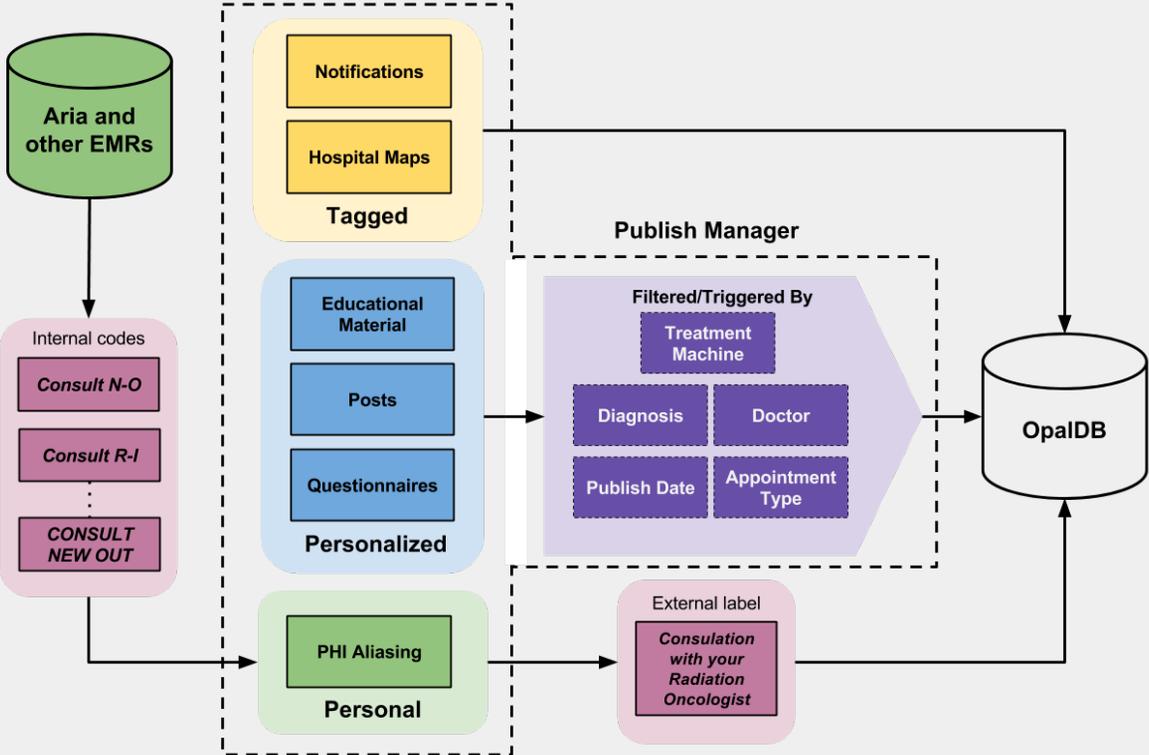

## Opal - Personal Health Information Preferences

Cedars Cancer Centre waiting room survey, summer 2016 (n = 100 patients)

# Opal - Publish Manager
